EXPERIENCE

June 2022 - Present

XPlained Computer Solutions. l P.O Box 9553, Maseru 100, Lesotho

Lakeside Hotel Office Suite, Office No 10

Freelancing IT Technician

- IT support and troubleshooting for various clients, resolving technical issues efficiently to minimize disruption.
- Manage and maintain client IT infrastructure, ensuring systems operate smoothly and securely.
- Analyze and solve hardware and software issues, demonstrating strong problem-solving skills.
- Collaborate with clients to optimize their IT solutions, increasing efficiency and productivity.

Feb 2023 - May 2024

Tech For All. l Unit 16 Kingsway mall, Maseru 100, Lesotho

Volunteering Software Developer

- **Collaborative Development:** Worked with software development and testing teams to design and implement solutions that meet client requirements for functionality, scalability, and performance.
- **Version Control with Git**: Utilized Git for version control to manage code, collaborate with team members, and track changes in both front-end and back-end development.
- **System Evaluation**: Coordinate with engineers to evaluate and improve software interfaces, and user experience ensuring smooth integration.
- **Project Review:** Reviewed project specifications and ensure technology solutions meet or exceed performance expectations.
- **Back-end Integration**: Integrated data from back-end services and databases, developed an Express.js API for Bathothi and Pikapp applications.

EDUCATION
